New equipment in Karlstad

The Karlstad (Sweden) facilities have been using different lifting aids for heavy lifting, both boxes and packages.

- The new tool is great, you can feel how the machine takes the strain of the body.

I am not as tired after a completed shift as I used to be, says Svante Jacob from the packaged goods division in Karlstad.

The lifting equipment on the packaging conveyor has been installed for a couple of months now and so far the overall response is positive. The vacuum lifter is actually being used by the conveyor operators.

- I have only heard positive reactions and I can see the lifter is being used continuously, says Tomas Thörnqvist, foreman at the Karlstad terminal.

The scissor table that used to be installed beside the conveyor was only rarely used, it was experienced to be time consuming and complicated.

The new vacuum lifter can lift boxes up to 66 lbs. A vacuum pump makes the vacuum cup grip the box, a slight gaming experience over the controls and after a little practice, lifting with the vacuum lifter is as quick as manual lifting.

The very light packages are still being handled manually, and the new lifter has trouble lifting some of the shrinkwrapped goods and packages with a lot of weight in one end.

- But those types of packages are rare, no more than two per shift, says Svante Jacob.

VACUUM LIFTER - VACUCOBRA CARGO LIFTER

HIGH SPEED BOX HANDLING MADE SAFE AND EASY

- VacuCobra is a strong, compact, versatile piece of equipment designed to make quick work of handling many different boxed loads weighing up to 88 lbs. Its suction cup will secure boxes of all shapes and sizes to lift and move them in total safety.
- Bottom swivel and angle adaptor give full freedom of motion when gripping the load.
- Incorporated quick-release function further increases handling speed.
- VacuCobra's fingertip control can be adjusted from the right to the left of the handle in a matter of seconds.

VACUUMLIFTER VacuCobra VC100
• Art nr 671000

Capacity	88 lbs*
Handle	Onehanded control
Angle adapter	Integrated
Swivelling function	Integrated bottom swivel
Lift tube	Ø100 mm
Lifting speed	Appr 1 m/s
Lifting height	1500 mm

* In combination with vacuum pump 685960.

VACUUM PUMP KVT3.60
• Art nr 685960

Effect	2,4 kW
Motor	1420 rpm
Vacuum	100 mbar

ACCESSORIES

- Air tube Ø32 mm l: 7,5 m art nr 630902
- Air filter art nr 610931
- Connection piece art nr 671604 (for filter)
- Silencing hood for vacuum pump (optional) art nr 666720

(Suspending jib arm or crane system not included)
